

BRONZE MEMORIALS

The following are examples of the various bronze markers that are available through our office. Please understand that the names and dates are fictitious and are created solely to provide design options for families to consider.

Each design is customized to meet your wishes. Please use the following steps while considering the creation of a fitting memorial.

The pricing is listed just below each design. Markers are installed on a base, either concrete or granite. The pricing is based on the base chosen and are complete with sales tax and installation included.

The basic design of each model is the border and the major designs (usually along the edges and in the corners). For example in the Crimson Rose below, the rock pitch border and the roses are the design. All other items are added to tell who that person was.

Each marker price quoted includes the full name, full dates, up to 6 words of endearment and up to two emblems.

In the Crimson Rose below the In God's Loving Care ribbon and the Eastern Star are emblems.

We can design the marker and share the image with you via email.

Production and delivery of most markers usually take from 8 to 10 weeks.

Crimson Rose GB-712
